DAVAO

Your world is out there.
See it all clearly.

SO NOW YOU KNOW

The First Step To An Eye For Excellence:
In 1950, De Los Reyes Optical opened its
very first branch in 31 P. Gullas St., Cebu
City.

1950

More Than Just Valentine's Day: Every
Valentines Day, the De Los Reyes Optical
family celebrates their anniversary. This
year, De Los Reyes Optical celebrated its
65th anniversary. Horraaay!

65

An Eye to Expand: On May of 2012, De
Los Reyes Optical opened its first branch
outside of Cebu in Davao.

2012

A Dozen And Beyond: Now, De Los Reyes
has a total of 12 branches and looks to
expand more.

12

Free Eye Check Up

We promise, for every visit to any of our branches, you are entitled to a complete and free eye examination.

Adjustment

Here at De Los Reyes Optical, we believe that it is important to have your eyewear cleaned as much as it is important to have the correct prescription. Come and get a free cleaning at your request any time.

Cleaning

We make sure that your eyewear is adjusted to your personal fit for the best vision and the best comfort possible.

Contact Lens Fitting

Aside from prescription eyewear, we also offer quality contact lenses. We can assess and determine what kind of contact lens would best suit your eyes as well as your lifestyle through our fitting service

Nose Pad Replacement

Over time, spectacle nose pads tend to accumulate dirt and often need replacement. Nose pads can also loosen or break off, so it's important that you readjust or replace them with a new pair so you can wear your glasses with confidence and comfortability.

Screw Replacement

Wearing eyeglasses or sunglasses on a regular basis, accidents can happen. Not only that, but wearing the same pair of eyeglasses day – to – day can loosen the screws and the springs, as well as other parts.

Internal Eye Health Examination

As they say, prevention is always better than detection. Our doctors are trained and skilled in ophthalmoscopy and biomicroscopy to monitor your internal eye health. Your aqueous and vitreous humor, crystalline lens, retina and optic nerve can be assessed to monitor and rule out any underlying illnesses.

Color Deficiency Screening

Color vision problems are usually associated with genetics. People can live their whole lives without realizing they have problems with color perception, therefore it's important to have your color vision checked regularly as it may even help in diagnosing underlying diseases like diabetes and even macular degeneration. Certain occupations also require good color vision, like medical technologists and seamen

Intraocular Pressure Check

Glaucoma or ocular hypertension is one of the leading causes of blindness all over the world and is often associated with near-sightedness. It's important to check and monitor the pressure inside your eyes to rule out this condition through a tonometer. Because we at De Los Reyes care, this service is available at all branches.

ABOUT US

What started out as a small optical shop in downtown Cebu has grown into one of the most notable names in the industry. Over 65 years in the business, De Los Reyes Optical takes pride in rendering quality service.

Every purchase made at De Los Reyes Optical entitles one to a lifetime of privileges such as eye exam, intraocular pressure check, color deficiency screening, nose pad and screw replacements, eyeglasses cleaning and many more. Apart from their wide range of glasses and frames, they also have state-of-the-art equipment to ensure only the best for their customers.
